Description

Command your team of dogs to round up all the sheep in this cozy strategy game.

It's time for the sheep to head home! Will you command your team of dogs to round them up in as few turns as possible? Or will the sheep outsmart you with their wooly ways?

Direct your team of dogs to herd all the sheep and other animals back home. Each dog has a unique ability to help open up paths, maneuver the sheep, and get everyone home. Make strategic use of your dogs' abilities to find the most efficient solution to the puzzles or just chase the sheep around until they find their way home.
